### 3. PLAN GOALS AND OBJECTIVES

---

David Hutchison sent out a version of the Goals and Objectives that he had marked up. A copy of this was provided to everyone in attendance. The Committee decided to review the changes and address any additional necessary changes in the modified Goals and Objectives. The Goals and Objectives with all of the changes are attached to these minutes. Most of the changes revolved around consolidation of Objectives and identifying and updating Goals and Objectives that are more action statements.

The Overall Goal was changed to reflect transportation choices and to support livability.

Goal 1 and the Objectives were changed mostly to reflect the types of spaces where greenways could and should be built.

Goal 2 and Objectives were changed to reflect that there should be a complete and integrated bicycle, pedestrian, transit, and street network.
