### 2. UPDATE BIKE/PED MAP

---

This review of the Bike/Ped map focused on the sidewalk system. Staff reviewed streets with inconsistent sidewalks and made recommendations for “priority sidewalks” where gaps needed to be filled. Upon reviewing these recommendations, the committee suggested that certain ones, like Kansas Expressway, should not extend the entire length of the street, that other smaller streets should be added to the system for connectivity, and that overall, this was a good approach to identifying priority gaps. Staff was asked to map the recommendations and additional changes, and then send out the map to each jurisdiction for further review.
