

OZARKS TRANSPORTATION ORGANIZATION

LOCAL COORDINATING BOARD FOR TRANSIT

28 October 2010
3:00 p.m.
City Utilities Transit Center Conference Room
1505 Boonville, Springfield, Missouri

MEMBERS PRESENT

J. Howard Fisk, Fisk Transportation
Diane Gallion, City Utilities Transit

Linda Starr, Springfield Workshop, Inc.

STAFF PRESENT

Natasha Longpine

1. WELCOME AND INTRODUCTIONS

Introductions were made of everyone in attendance.

2. 5310 APPLICATION SCORING CRITERIA

The following changes to the 5310 Application Scoring Criteria were discussed:

Maintain the existing points distribution for each category.

Look at how to add the following under NEED – How long has the agency owned the vehicle and how many miles have they put on the vehicle while owning it? This will require a change to the application, which would rely on MoDOT.

Under USAGE – add the # of persons served.

Under SERVICES – revise the points assigned to each category > keeping 5 for medical, making 4 for education, keeping 3 for nutrition, making 2 for recreation, keeping 2 for shopping, making 5 for employment, and keeping 1 for other.

Put each of the 3 SPECIAL AGENCY SITUATIONS into a table with 5 points each. Also change from geographic areas not covered to persons not covered by other regional transportation providers.

Ask how many hours each day of the week for SERVICE HOURS.

Also see if an additional change can be made to the Application, which again relies on MoDOT. Appendix A asks for information if replacing a **MoDOT** vehicle, but this would be good information regardless of how the vehicle was originally acquired.

3. OTO LONG RANGE TRANSPORTATION PLAN

Natasha Longpine reviewed the OTO Long Range Transportation Plan Process. It was decided to wait until the next meeting with more attendees to discuss input to the plan.

4. OTHER BUSINESS

None.

5. ADJOURN
